

AlphaWulf

The AlphaWulf™ is an evolution of the VaporSmartz™ in a more compact package. This recovery system is engineered for the professional who is looking to super-charge their processing performance and efficiency. By working closely with our customers, and using their valuable input, we've focused on providing only what you, the Processor, want without the extras you don't need. This recovery system is truly designed by Processors, for Processors.

FEATURES

- ▶ Recovers up to 2+ lbs/Minute
- ▶ UL and NEMA 7 rated 2 HP motor
- ▶ 15 CFM
- ▶ Reliable piston driven pump-head with low maintenance when paired with a molecular sieve or CycloneDry™ filter
- ▶ Certified by 3PCertx, Professional Engineers 
- ▶ Belt Drive: Quiet and Reliable: less than 80 dB
- ▶ Oil-less: No contamination
- ▶ Customization options:
 - ▷ Custom OEM branding (your logo on our pump)
 - ▷ Addition of gauges for input and/or output
 - ▷ Addition of on/off switch
- ▶ Durable and simple to maintain
- ▶ Dimensions: 28"(l) x 18"(w) x 25.5"(h)
- ▶ Sturdy stainless steel worktop: 18" x 20"
- ▶ USA made

WHAT YOU NEED [Optional equipment, not included]

- ▶ Electrical cord, either:
 - ▷ 110 volt - 10 gauge
 - ▷ 220 volt - 12 gauge
- ▶ Class 1, Division 1 NEMA 7 switch or plug
- ▶ Molecular sieve or CycloneDry™
 - ▷ Some form of filtration is required to be paired with your AlphaWulf in order to properly protect your recovery system. If you operate your AlphaWulf™ without a molecular sieve or a CycloneDry™, your warranty becomes null and void.
