

# PDX OEM 150

The PDX OEM 150 is ideal for a closed loop extraction system manufacturer looking to increase throughput. Our PDX OEM 150 is easily integrated into any closed loop extraction system and allows you to private label the unique PDX.Gold vapor recovery technology.

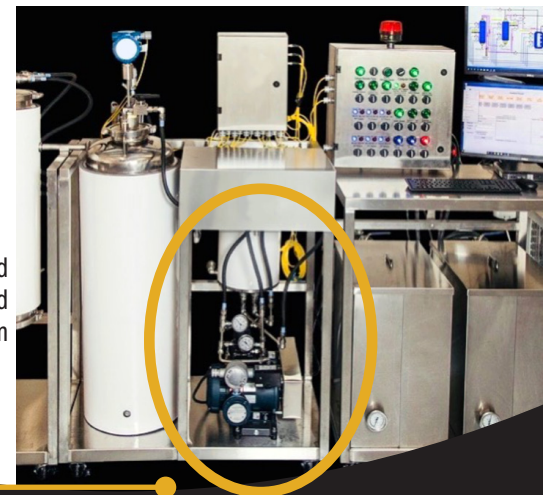

Please note: PDX OEM 150 compressors meet all safety standards and are certifiable as part of a closed loop extraction system, but are not independently certified: the manufacturer is responsible for certifying the entire closed loop system.

## FEATURES

- ▶ UL listed, NEMA 7 rated 2 HP motor
- ▶ Operates up to 150 psi, for hydrocarbon solvents\*
- ▶ Recovers 2+ lbs / minute\*\*
- ▶ 15 - 18\*\* CFM
- ▶ Oilless compressor prevents lubricant contamination
- ▶ Belt drive is reliable and quiet at less than 80 dB
- ▶ 1700 RPM
- ▶ Integrate into your closed loop system
- ▶ Ability to private label
- ▶ Dimensions: 26"(l) x 17"(w) x 11"(h)
- ▶ USA made

VaporOEM fully integrated into an automated closed loop system

\*Approved hydrocarbons: butane, propane, blends of the two.

\*\*Performance varies depending on your system configuration
