VaporSmarz iQ150

The VaporSmarz iQ150 is the recovery system so intelligent, it thinks for itself.

Our priorities at PDX.Gold are safety and performance; with this recovery system that's what you'll get. The VaporSmarz iQ150 is an American made recovery system designed for hydrocarbon solvents*. This recovery system is engineered to provide the utmost in safety and quality that you need for botanical extraction.

Built for the user, our ergonomic design is standard counter height to provide a usable work surface with no bending down to check gauges. The automatic shut off system ensures that your recovery system is protected from surges and overpressurization.

FEATURES

- ▶ Safety is priority #1:
Smart technology built in for automatic shut off
Low Pressure shut off at -12 PSI (24 Hg)
High Pressure shut off at 150 PSI
- ▶ NEMA 7 Class 1 Division 1 explosion proof components
- ▶ UL listed, NEMA 7 rated 2 hp motor
- ▶ Certified by 3PCert, licensed professional engineers
- ▶ Recovers solvent at pressures up to 150 PSI*
- ▶ Recovers up to 2+ lbs / minute**
- ▶ 15 - 18 CFM**
- ▶ Oilless compressor prevents lubricant contamination
- ▶ Durable and maintenance free with proper operation
- ▶ Swagelok® compatible stainless steel fittings
- ▶ Belt drive is reliable and quiet at less than 80 dB
- ▶ Dimensions: 28.5" wide x 20" deep x 40" tall
- ▶ Stainless steel worktop: 28.5" wide x 13.75" deep
- ▶ 220-volt: requires a dedicated 30 amp circuit
- ▶ USA made

*Approved hydrocarbons: butane, propane, blends of the two.

** Performance varies depending on your system configuration
